

SHOKHBOZ ABDULLAEV

Full Stack Developer

+998-99-390-2655

shokhboz11abdullayev@gmail.com

shox-pro.com

Uzbekistan, Khavast city

Firstly I was motivated by thinking that programming is an art. I started learning Python in 2019. I used Python to build little programs in order to make my mind run into programming basics. Nowadays I'm using JavaScript as my main language. I have an ability to learn new skills in IT sphere. Searching skills to make what's in purpose. Good at communication. Always online.

WORK EXPERIENCES
